

# 一般演題

優秀演題ワークショップ 場所：5階 小ホール 2015年1月23日(金) 9:30~11:50

◆座長 黒沢洋一 (鳥取大学医学部医学科健康政策医学分野)

Youichi Kurozawa (Division of Health Administration and Promotion, Faculty of Medicine, Tottori University)

AW-01 Higher vitamin D intake during pregnancy is associated with reduced risk of dental caries in young Japanese children

Keiko Tanaka

Department of Hygiene, Faculty of Medicine, Kagawa University, Kagawa, Japan

香川大学 医学部 田中景子

AW-02 Estimates of influenza vaccine effectiveness among Japanese children during the 2013/14 season: a test-negative design

Wakaba Fukushima

Department of Public Health, Osaka City University Faculty of Medicine, Osaka, Japan

大阪市立大学大学院 医学研究科 公衆衛生学 福島若葉

AW-03 Disaster experience and disease presence among Japanese children

Mami Ishikuro

Tohoku Medical Megabank Organization, Sendai, Japan

東北大学東北メディカル・メガバンク機構 石黒真美

AW-04 The impact of maternal isolation on the child-rearing cost among mothers in Japan

Yukiko Honda

Department of Social Medicine, National Research Institute for Child Health and Development, Tokyo, Japan

独立行政法人国立成育医療研究センター研究所 社会医学研究部 本多由起子

◆座長 田中英夫 (愛知県がんセンター研究所 疫学・予防部)

Hideo Tanaka (Division of Epidemiology and Prevention Aichi Cancer Center Research Institute)

AW-05 Plasma insulin, C-peptide, and blood glucose and the risk of gastric cancer: The JPHC study  
Akihisa Hidaka

Epidemiology and Prevention Group, Research Center for Cancer Prevention and Screening, National Cancer Center, Tokyo, Japan

国立がん研究センター がん予防・検診研究センター 日高章寿

AW-06 The association between particulate matter components and daily mortality in Nagoya

Kayo Ueda

Department of Engineering, Graduate School of Kyoto University, Kyoto, Japan

京都大学大学院 工学研究科 上田佳代

AW-07 Trends in cancer survival statistics in Japan using population-based cancer registry data in 1993-2006 (J-CANSIS)

Yuri Ito

Center for Cancer Control and Statistics, Osaka Medical Center for Cancer and Cardiovascular Diseases, Osaka, Japan

大阪府立成人病センター がん予防情報センター 伊藤ゆり

AW-08 Meat Intake and Incidence of Cardiovascular disease in Japanese Patients with Type 2 Diabetes: Analysis from the JDCS

Chika Horikawa

Department of Health and Nutrition, University of Niigata Prefecture Faculty of Human Life Studies

新潟県立大学 人間生活学部 健康栄養学科 堀川千嘉

AW-09 Risk of Developing Diabetes in Relation to Overall Obesity, Abdominal Obesity and Clustering of Metabolic Abnormalities

Yoriko Heianza

Department of Internal Medicine, Niigata University Faculty of Medicine, Niigata, Japan

新潟大学大学院医歯学総合研究科 血液・内分泌・代謝内科 平安座依子

◆座長 辻一郎（東北大学大学院医学系研究科公衆衛生学分野）

Ichiro Tsuji (Division of Epidemiology, Department of Public Health & Forensic Medicine  
Tohoku University Graduate School of Medicine)

AW-10 Population attributable fractions of CVD risk factors combination from the pooled analysis of 85,432 Japanese

Yoshitaka Murakami

Department of Medical Statistics, Toho University, Tokyo, Japan

東邦大学 医学部 社会医学講座 医療統計学分野 村上義孝

AW-11 Randomized controlled crossover trial of salt reduction: (2) effect of monitoring salt concentration  
Misako Nakadate

Department of Nutrition Science, Sagami Women's University

相模女子大学 栄養科学部 中館美佐子

AW-12 Effective coverage of treatment of hypertension in Japan: an analysis of nationally representative data, 2000-2012

Nayu Ikeda

Center for International Collaboration and Partnership, National Institute of Health and Nutrition, Tokyo,

Japan

独立行政法人国立健康・栄養研究所 国際産学連携センター 池田奈由

AW-13 Fundus changes and disabling dementia among Japanese: the Circulatory Risk in Communities Study (CIRCS)

Hiroshige Jinnouchi

Public Health, Graduate School of Medicine, Osaka University, Osaka, Japan

大阪大学大学院 医学系研究科 公衆衛生学教室 陣内裕成

AW-14 Trajectory of cognitive function and nutritional biomarkers among older Japanese: the Kusatsu Longitudinal Study

Hiroshi Murayama

Research Team for Social Participation and Community Health, Tokyo Metropolitan Institute of Gerontology, Tokyo, Japan

東京都健康長寿医療センター研究所 社会参加と地域保健研究チーム 村山洋史

一般口演(1) 場所：9階 Rm908 2015年1月23日(金) 9:30~15:00

Global health 1 9:30~10:30

◆座長 Hae-Kwan Cheong

O1-01 Treatment and prognosis of hydatidiform mole in Vietnam

Eiko Yamamoto

Nagoya Graduate University School of Medicine, Nagoya, Japan Eiko Yamamoto

O1-02 Capacity building toward evidence-based medicine among health care professionals in Ho Chi Minh City

Yujiro Kuroda

Department of Public Health, Fukushima Medical University School of Medicine

O1-03 Attrition rate of doctors, nurses, and other staff from the Department of Medical Sciences in 2010 and 2011

Nang Mie Mie Htun

Nagoya University Graduate School of Medicine Department of Healthcare Administration/Young Leaders' Program

O1-04 Risk factors for trading sex for methamphetamine among current methamphetamine users in Muse, Myanmar

Saw Yu Mon

Women Leaders Program to Promote Well-being in Asia, Graduate School of Medicine, Nagoya University, Nagoya, Japan

O1-05 Association of socioeconomic determinants with community clinic awareness and visitation in

Bangladesh

Sarker Mohammad Abul Bashar

Nagoya University Graduate School of Medicine, Department of Healthcare Administration, Nagoya, Japan

O1-06 Magnitude & characteristics of common injuries in a selected rural area of Bangladesh

Khan Abul Fazal Mohammad Shahabuddin

Nagoya University Graduate School of Medicine Department of Healthcare Administration/Young Leaders' Program, Nagoya, Japan

Global health 2 10 : 30~11 : 00

◆座長 Jin-Ho Chun

O1-07 Inequity in healthcare use and treatment of non-communicable diseases: evidence from urban Nepal

Eiko Saito

Graduate School of Medicine, The University of Tokyo, Tokyo, Japan

O1-08 Ethnic Differences in Instrumental Activities of Daily Living among Older People in Kandy, Sri Lanka

Khaltar Amartuvshin

Department of Health Care Policy, Hokkaido University Graduate School of Medicine, Sapporo, Japan

O1-09 The prevalence of metabolic syndrome and contributing factors among Japanese migrants in South Brazil

Takayoshi Iijima

Department of Epidemiology and Public Health, Yokohama City University School of Medicine, Yokohama, Japan

Cancer and infection 11 : 00~11 : 40

◆座長 Jin-Ho Chun

O1-10 Awareness on Hypertension during Pregnancy among Haitian Mothers

Vincent Perpetue

Graduate School of Comprehensive Human Sciences, University of Tsukuba

O1-11 Exploring the etiology of esophageal cancer in Cixian, a high-incidence area of China

Yingsong Lin

Department of Public Health, Aichi Medical University, Nagakute, Aichi, Japan

O1-12 Clinical and Lifestyle Characteristics associated with HTLV-I Carrier among General Population

Kairupan Tara Sefanya

Department of International Islands and Community Medicine, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Japan

O1-13 HPV Self-Sampling- A Novel Method to Increase Cervical Cancer Screening Uptake in Japanese Women

Hanley Sharon

Department of Women's Health Medicine, Hokkaido University Graduate School of Medicine

Infectious disease 13 : 00~13 : 30

◆座長 西浦博（東京大学大学院医学系研究科 国際社会医学講座）

Hiroshi Nishiura (Graduate School of Medicine, The University of Tokyo)

O1-15 Quantifying spatio-temporal transmission dynamics of ebolavirus (EBOV)

Hiroshi Nishiura

Graduate School of Medicine, The University of Tokyo, Japan Hiroshi Nishiura

O1-16 Sero-epidemiological Study on hepatitis B and C virus infection among school students in Siem Reap, Cambodia

Mayumi Fujimoto

Department of Epidemiology, Infectious Disease Control and Prevention, Institute of Biomedical and Health Sciences, Hiroshima University, Hiroshima, Japan

O1-17 Identification and Management of Key Container for Aedes Larval Breeding to Control Dengue in Bangladesh

Ferdousi Farhana

Department of Clinical Trial and Clinical Epidemiology, Graduate School of Comprehensive Human Sciences, University of Tsukuba, Japan

Exposure to hazards 13 : 30~14 : 00

◆座長 西浦博（東京大学大学院医学系研究科 国際社会医学講座）

Hiroshi Nishiura (Graduate School of Medicine, The University of Tokyo)

O1-18 Evaluation of medical radiation exposures among atomic bomb survivors

Atsuko Sadakane

Radiation Effects Research Foundation

O1-19 Assessment of effects of air pollution on daily outpatient visits using the air quality index

Haosheng Mu

Division of Health Administration and Promotion, Faculty of Medicine, Tottori University, Yonago, Japan

01-20 Prenatal and postnatal tobacco smoke exposure and the risks of asthma in children: A propensity score analysis

Limin Yang

Division of Allergy, Department of Medical Subspecialties, Medical Support Center for Japan Environment and Children's Study (JECS), National Center for Child Health and Development, Tokyo, Japan

Child and maternal health 14 : 00~14 : 30

◆座長 ジョシュア・A・ライヤー (名古屋大学大学院医学系研究科 医療行政・YLP)

Joshua A. Reyer (Department of Healthcare Administration/YLP, Nagoya University Graduate School of Medicine)

01-21 Living in rural areas increased the risk of teenage motherhood in Japan

Sachiko Baba

Osaka University Graduate School of Medicine

01-22 Maternal body mass index and risk of birth and maternal health outcomes: a systematic review and meta-analysis

Rahman Mizanur

Department of Global Health Policy, The University of Tokyo

01-23 Contraception in Japan - An overview of the research from 2004-2014

Joshua A Reyer

Nagoya University Graduate School of Medicine Department of Healthcare Administration/Young Leaders' Program

Social aspects 14 : 30~15 : 00

◆座長 ジョシュア・A・ライヤー (名古屋大学大学院医学系研究科 医療行政・YLP)

Joshua A. Reyer (Department of Healthcare Administration/YLP, Nagoya University Graduate School of Medicine)

01-24 Establishment of a Personalized Preventive Strategy of Upper Aerodigestive Tract Cancer Using Risk Prediction Model

Yuriko Koyanagi

Department of Preventive Medicine, Kyushu University Faculty of Medical Sciences, Fukuoka, Japan

01-25 Patients' values and preference in clinical practice guidelines for rheumatoid arthritis management in Japan

Masayo Kojima

The Department of Public Health, School of Medical Sciences, Nagoya City University, Nagoya, Japan

01-26 The patient's recognition level of medical terms estimated by healthcare workers

Yoshitoku Yoshida

Graduate School of Medicine, Nagoya University, Nagoya, Japan

一般口演(2) 場所：9階 Rm907 2015年1月23日(金) 9:30~15:00

Metabolic syndrome 1 9:30~10:10

◆座長 横山徹爾 (国立保健医療科学院 生涯健康研究部)

Tetsuji Yokoyama (Department of Health Promotion, National Institute of Public Health)

O2-01 Regional disparities in metabolic risk factors in Japan - health examination data of 5.2 million SME workers

Tetsuji Yokoyama

Department of Health Promotion, National Institute of Public Health, Saitama, Japan

O2-02 Body Fat Percentage is Associated with Blood Pressure Variability among Normotensive Women; from the J-MICC Daiko Study

Rieko Okada

Department of Preventive Medicine, Nagoya University Graduate School of Medicine, Nagoya, Japan

O2-03 Dietary acid load and insulin resistance among Japanese adults: the Furukawa Nutrition and Health Study

Akter Shamima

Department of Epidemiology and Prevention, Center for Clinical Sciences, National Center for Global Health and Medicine, Tokyo, Japan

O2-04 The Association between Dietary Pattern and Serum Adiponectin: A Cross Sectional Study In Japanese Population

Bahari Tirani

Department of Preventive Medicine, Institute of Health Biosciences, The University of Tokushima, Tokushima, Japan

Metabolic syndrome 2 10:10~11:00

◆座長 栗木清典 (静岡県立大学 食品栄養科学部 公衆衛生学研究室)

Kiyonori Kuriki (Laboratory of Public Health, School of Food and Nutritional Sciences, University of Shizuoka)

O2-05 The effectiveness of follow-up care on elevated HbA1c in Japanese adults: A retrospective cohort study

Dagvadorj Amarjargal

Department of Health Informatics, School of Public Health, Kyoto University, Kyoto, Japan

O2-06 Seasonal variations in associations between bioelectrical impedance analysis-measured visceral fat area and diet

Kiyonori Kuriki

Division of Nutritional Sciences, School of Food and Nutritional Sciences, University of Shizuoka,  
Shizuoka, Japan

O2-07 Risk of thromboembolism and other adverse events by body mass index in Japanese oral  
contraceptive users

Kazuko Sugiura

The Department of Hamamatsu University School of Medicine, Shizuoka, Japan

O2-08 Older age is a strong predictor for poor outcome in intracerebral haemorrhage: the  
INTERACT2 study

Hisatomi Arima

Center for Epidemiologic Research in Asia, Shiga University of Medical Science

O2-09 Body mass index trajectories during early childhood in children affected by the Great East  
Japan Earthquake

Zheng Wei

Department of Health Sciences, Interdisciplinary Graduate School of Medicine and Engineering  
University of Yamanashi

Life expectancy 11 : 00~11 : 50

◆座長 内藤真理子 (名古屋大学大学院医学系研究科予防医学)

Mariko Naito (Department of Preventive Medicine, Nagoya University Graduate School of Medicine)

O2-10 What health measures show large disparity by income levels?: prioritizing the targets of  
long-term care prevention

Toyo Ashida

Department of Health and Social behavior, School of Public Health, The University of Tokyo, Tokyo,  
Japan

O2-11 The Development of benchmark system for health disparities in healthy aging in Japan:  
JAGES HEART

Katsunori Kondo

Center for Preventive Medical Sciences, Chiba University, Chiba, Japan

O2-12 Incident osteoporotic fracture increases the risk of death independently of frailty indices in  
elderly Japanese men

Masayuki Iki

Department of Public Health, Kinki University Faculty of Medicine, Osaka-Sayama, Japan

O2-13 The impact of oral health-related quality of life on total mortality

Mariko Naito

Department of Preventive Medicine, Graduate School of Medicine, Nagoya University, Nagoya, Japan

O2-14 Low-carbohydrate-diet score and total mortality in a 19-year follow-up: the Japan Collaborative Cohort (JACC) Study

Kenji Wakai

Department of Preventive Medicine, Nagoya University Graduate School of Medicine, Nagoya, Japan

Mental health 13 : 00~13 : 40

◆座長 三宅吉博 (愛媛大学大学院医学系研究科公衆衛生・健康医学講座)

Yoshihiro Miyake (Department of Public Health, Ehime University Graduate School of Medicine)

O2-15 Association between orthostatic dysregulation and depression among junior high school children in Japan

Miri Sato

Center for Birth Cohort Studies, Interdisciplinary Graduate School of Medicine and Engineering, University of Yamanashi

O2-16 Intake of dairy products and calcium and prevalence of depressive symptoms during pregnancy in Japan

Yoshihiro Miyake

Department of Public Health, Ehime University Graduate School of Medicine

O2-17 Comparison of the mental issues of coastal and inland area: The Tohoku Medical Megabank Community-based Cohort Study

Naoki Nakaya

Tohoku Medical Megabank Organization, Tohoku University, Sendai, Japan

O2-18 Factors associated with insomnia in Fukushima nuclear power plant workers: the Fukushima NEWS Project Study

Shogo Furuya

School of Medicine, Juntendo University, Tokyo, Japan

Biomarkers 13 : 40~14 : 20

◆座長 原めぐみ (佐賀大学医学部社会医学講座予防医学分野)

Megumi Hara (Department of Preventive Medicine, Faculty of Medicine, Saga University)

O2-19 The impact of serum dehydroepiandrosterone sulfate concentrations on bone density

Sadao Suzuki

Department of public health, Nagoya city university Graduate School of medical sciences, Nagoya, Japan

O2-20 Neutrophil/lymphocyte ratio as a predictive factor of cancer incidence among Japanese elderly:

the Tsurugaya project

Haruki Momma

Division of Biomedical Engineering for Health and Welfare, Tohoku University Graduate School of Biomedical Engineering, Sendai, Japan

O2-21 Association between moderate/vigorous intensity of physical activity and urinary levels of 8-hydroxydeoxyguanosine

Megumi Hara

Department of Preventive Medicine, Faculty of Medicine, Saga University, Saga, Japan

O2-22 Risk factors for systemic lupus erythematosus among Japanese females

Masakazu Washio

St. Mary's College, Kurume, Japan

Genetic morphorism 14 : 20~15 : 00

◆座長 松尾 洋孝 (防衛医科大学校 分子生体制御学講座)

Hiroataka Matsuo, (Department of Integrative Physiology and Bio-Nano Medicine, National Defense Medical College)

O2-23 ABCG2 dysfunction causes not only renal urate overload hyperuricemia but also renal urate underexcretion hyperuricemia

Hiroataka Matsuo

Department of Integrative Physiology and Bio-Nano Medicine, National Defense Medical College, Tokorozawa, Japan

O2-24 Interleukin-6 promoter polymorphism associated with keloid in the Japanese population

Ghazizadeh Mohammad

Department of Plastic & Reconstructive Surgery, Musashi-kosugi Hospital, Nippon Medical School, Kawasaki, Japan

O2-25 Association of an EPAS1 gene polymorphism with susceptibility to lung adenocarcinoma in female Japanese non-smokers

Hidetaka Eguchi

Translational Research Division, Research Center for Genomic Medicine, Saitama Medical University

O2-26 Evidence for a Genetic Susceptibility to Childhood Acute Lymphoblastic Leukemia across Races/Ethnicities

Kevin Urayama

Department of Human Genetics and Disease Diversity, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University

一般口演(3) 場所 : 9 階 Rm906 2015 年 1 月 23 日(金) 9 : 30~15 : 00

循環器（アルコール） 9:30～10:10

◆座長 大平 哲也（福島県立医科大学 医学部 疫学講座）

Tetsuya Ohira (Department of Epidemiology, Fukushima Medical University)

O3-01 Alcohol and tobacco consumption and mortality from aortic dissection and aneurysm: The Ibaraki Prefectural Health Study

Mizuki Sata

Public Health, Graduate School of Medicine, Osaka University, Osaka, Japan

大阪大学大学院医学系研究科社会環境医学講座 佐田みずき

O3-02 Association between alcohol consumption and vascular endothelial function: a cross-sectional study (CIRCS)

Aoi Tanaka

Public Health, Osaka University Graduate School of Medicine, Osaka, Japan

大阪大学 医学系研究科 公衆衛生学 田中葵

O3-03 Relationship between alcohol intake and hypertension depending on the flushing response in Japan: NIPPON DATA2010

Mana Kogure

Division of Personalized Prevention and Epidemiology, Department of Preventive Medicine and Epidemiology, Tohoku University Graduate School of Medicine, Miyagi, Japan

東北大学 大学院医学系研究科 個別化予防・疫学分野 小暮真奈

O3-04 Metabolomic pathway analysis in a large population study reveals metabolic change by alcohol intake and hypertension

Sei Harada

Department of Preventive Medicine and Public Health, School of Medicine, Keio University, Tokyo, Japan

慶應義塾大学 医学部 衛生学公衆衛生学教室 原田成

循環器（身体活動等） 10:10～11:00

◆座長 中村好一（自治医科大学公衆衛生学教室）

Nakamura Yosikazu (Department of Public Health, Jichi Medical University)

O3-05 Cardiorespiratory Fitness and Incidence of Hypertension: a Long Term Cohort Study of Japanese Men

Yuko Gando

National Institute of Health and Nutrition, Department of Health Promotion and Exercise

独立行政法人 国立健康・栄養研究所 健康増進研究部 丸藤祐子

O3-06 Long-Term Trend in Cardiorespiratory Fitness and the Incidence of Dyslipidemia: a Cohort Study in Japanese Men

Susumu Sawada

National Institute of Health and Nutrition, Department of Health Promotion and Exercise

独立行政法人 国立健康・栄養研究所 健康増進研究部 澤田亨

O3-07 Were a regular bedtime related to CVD and mortality? At middle aged Japanese 7.8 year follow-up Cohort study

Katsutoshi Okada

Academic General Health Center, Ehime University, Ehime, Japan

愛媛大学 総合健康センター 岡田克俊

O3-08 Impaired higher-level functional capacity as predictor of first symptomatic stroke among older adults: the Ohasama study

Keiko Murakami

Department of Hygiene and Public Health, Teikyo University School of Medicine

帝京大学 医学部 衛生学公衆衛生学講座 村上慶子

O3-09 Cardiac Rehabilitation in Middle-aged Patients with Ischemic Heart Disease in Japan: A medical claims-based survey

Natsuko Hoda

Department of Health Informatics, School of Public Health, Kyoto University, Kyoto, Japan

京都大学大学院医学研究科 社会健康医学系専攻健康情報学分野 法田奈津子

循環器 (栄養・バイオマーカー) 11:00~11:40

◆座長 八谷寛 (藤田保健衛生大学医学部公衆衛生学)

Hiroshi Yatsuya (Department of Public Health, Fujita Health University School of Medicine)

O3-10 Association between green tea consumption and risk factors for cardiovascular disease The Kakegawa Cohort study

Yuko Igarashi

Tohoku University Graduate School of Medicine, Sendai, Japan

東北大学大学院医学系研究科 五十嵐祐子

O3-11 A cross-sectional association between higher salt intake and lower ambient temperature from HEIJO-KYO study

Keigo Saeki

Department of Community Health and Epidemiology, Nara Medical University School of Medicine, Nara, Japan

奈良県立医科大学 地域健康医学教室 佐伯圭吾

O3-12 Melatonin secretion is associated with lower leukocyte and platelet counts in elderly individuals: The HEIJO-KYO cohort

Kenji Obayashi

Nara Medical University School of Medicine, Nara, Japan

奈良県立医科大学 医学部 大林賢史

O3-13 Cross-sectional associations between exposure to particulate matter and inflammatory markers in Japan: NIPPON DATA2010

Takehiro Michikawa

Environmental Epidemiology Section, Center for Environmental Health Sciences, National Institute for Environmental Studies

独立行政法人国立環境研究所 環境健康研究センター環境疫学研究室 道川武紘

循環器（危険因子等）13:00～14:00

◆座長 寶澤篤（東北大学東北メディカルメガバンク機構 予防医学・疫学部門）

Atsushi Hozawa (Department of Preventive Medicine and Epidemiology, Tohoku Medical Megabank Organization, Tohoku University)

O3-15 The number of metabolic syndrome components is more strongly associated with coronary artery disease than stroke

Hiroshi Yatsuya

Department of Public Health, Fujita Health University School of Medicine, Toyoake, Japan

藤田保健衛生大学 医学部 八谷寛

O3-16 Difference between the non HDL-C and LDL-C levels in a working-age population

Yoshiyuki Saiki

Department of Hygiene and Public Health, Graduate School of Nippon Medical School, Tokyo, Japan

日本医科大学 衛生学公衆衛生学教室 西城由之

O3-17 Dyslipidemia and the risk of developing hypertension in a working-age male population

Toshiaki Otsuka

Department of Hygiene and Public Health, Nippon Medical School, Tokyo, Japan

日本医科大学 大塚俊昭

O3-18 Maternal blood pressure is a risk factor of hypertension and hypercholesterolemia in later life

Kaori Iino

Department of Obstetrics and Gynecology Hirosaki University Graduate School of Medicine

弘前大学 医学部産科婦人科学講座 飯野香理

O3-19 Rate of starting antihypertensive medication after participants pointed out their hypertension at health check-up

Atsushi Hirayama

Department of Cardiology, Pulmonology and Nephrology, Yamagata University, Yamagata, Japan  
山形大学医学部 内科学第一講座 平山敦士

O3-20 Application of public-access AED pads for patients with out-of-hospital cardiac arrests in  
Osaka City

Kosuke Kiyohara

Department of Public Health, Tokyo Women's Medical University

東京女子医科大学 医学部衛生学公衆衛生学第二講座 清原康介

循環器（各種要因）14:00～15:00

◆座長 大久保孝義（帝京大学医学部衛生学公衆衛生学講座）

Takayoshi Ohkubo (Department of Hygiene and Public Health, Teikyo University School of Medicine)

O3-21 Change in Blood Pressure Levels among Residents in the Evacuation Zone after the Great East  
Japan Earthquake

Tetsuya Ohira

Department of Epidemiology, Fukushima Medical University, Fukushima, Japan

福島県立医科大学 医学部 疫学講座 大平哲也

O3-22 A progress report of the Tohoku Medical Megabank Community-based Cohort Study in Iwate  
Prefecture

Kiyomi Sakata

Iwate Tohoku Medical Megabank Organization, Iwate Medical University, Yahaba, Japan

岩手医科大学 いわて東北メディカル・メガバンク機構 坂田清美

O3-23 Prevalence of risk of cardiovascular disease in disaster areas of Iwate prefecture

Kozo Tanno

Iwate Tohoku Medical Megabank Organization, Iwate Medical University, Yahaba, Japan

岩手医科大学 いわて東北メディカル・メガバンク機構 丹野高三

O3-24 Socioeconomic Status Inconsistency and Risk of Stroke Among Japanese Middle-aged Women

Kaori Honjo

Global Collaboration Center, Osaka University, Osaka, Japan

大阪大学グローバルコラボレーションセンター 本庄かおり

O3-25 Impact of Measles and Mumps Virus Infections on Cardiovascular Disease: the Japan  
Collaborative Cohort (JACC) Study

Kubota Yasuhiko

Public Health, Department of Social Medicine, Osaka University Graduate School of Medicine, Osaka,  
Japan

大阪大学医学部 久保田康彦

O3-26 Seasonal characteristic of onset of Kawasaki disease in winter and summer seasons

Yukie Ozeki

Saitama Institute of Public Health, Saitama, Japan

埼玉県衛生研究所 尾関由姫恵

一般口演(4) 場所：9階 Rm905 2015年1月23日(金) 9:30~15:00

記述疫学と疫学手法 9:30~10:20

◆座長 橋本修二 (藤田保健衛生大学医学部衛生学講座)

Shuji Hashimoto (Department of Hygiene, Fujita Health University School of Medicine)

O4-01 Geographical distribution of primary care for elderly ambulatory diabetic patients in the Ibaraki prefecture

Takashi Nakamura

Division of Community and Family Medicine, Center for Community Medicine, Jichi Medical University, Tochigi, Japan

自治医科大学地域医療学 中村剛史

O4-02 Comparison of metabolic risk factors between business categories - health examination data of 5.2 million SME workers

Keiko Rokuro

Japan Health Insurance Association

全国健康保険協会 六路恵子

O4-03 (演題取消)

O4-04 Meta-analysis of logistic regression coefficients for clinical prediction models

Daisuke Yoneoka

The Graduate University for Advanced Studies, School of Advanced Sciences, Department of Statistical Science

総合研究大学院大学複合科学研究科統計科学専攻 米岡大輔

O4-05 Use of Bias Analysis in Meta-Analyses of Observational Studies

Atsushi Goto

Department of Public Health, Tokyo Women's Medical University, Tokyo, Japan

東京女子医科大学 医学部 衛生学公衆衛生学第二講座 後藤温

食生活と体格 10:20~11:00

◆座長 岡本尚子 (至学館大学健康科学部栄養科学科/名古屋市立大学大学院医学研究科)

Naoko Okamoto (Department of Nutrition, Faculty of Wellness, Shigakkan University / Department of Public Health, Nagoya City University Graduate School of Medical Sciences)

O4-06 Dietary Patterns and Serum Adipokines in Japanese working population

Ikuko Kashino

Department of Epidemiology and Prevention, Center for Clinical Sciences, National Center for Global Health and Medicine, Tokyo, Japan

国立国際医療研究センター臨床研究センター疫学予防研究部 榎野いく子

O4-07 The association of green tea and catechin consumption with blood lipids and hemoglobin A1c in Japanese

Kaori Endoh

School of Food and Nutritional Sciences, University of Shizuoka

静岡県立大学 食品栄養科学部 遠藤香

O4-08 Accuracy of self-reported height, weight and waist circumference in a Japanese population

Naoko Okamoto

Nagoya City University Graduate School of Medical Sciences, Aichi, Japan

名古屋市立大学大学院医学研究科 岡本尚子

O4-09 LOX-1 ligand containing ApoB (LAB), waist circumference and body mass index in healthy Japanese: the KOBE study

Yoshimi Kubota

Department of Environmental and Preventive Medicine, Hyogo College of Medicine, Hyogo, Japan

兵庫医科大学 環境予防医学講座 久保田芳美

ゲノム疫学 11:00~11:40

◆座長 森田えみ (名古屋大学大学院医学系研究科 予防医学)

Emi Morita (Department of Preventive Medicine, Nagoya University Graduate School of Medicine)

O4-10 Association between BDNF Val66Met polymorphism and overweight in a Japanese general population: J-MICC Study

Emi Morita

Department of Preventive Medicine, Nagoya University Graduate School of Medicine, Nagoya, Japan

名古屋大学大学院 医学系研究科 森田えみ

O4-11 Significant interaction between ADIPOQ gene and higher BMI on HbA1c levels in a Japanese general population

Chisato Shimano

Department of Preventive Medicine, Faculty of Medicine, Saga University, Saga, Japan

佐賀大学医学部 社会医学講座予防医学分野 島ノ江千里

O4-12 HOMA-IR values are associated with glycemic control in Japanese without diabetes or obesity: the KOBE Study

Takumi Hirata

Foundation for Biomedical Research and Innovation, Kobe, Japan

O4-13 Genefic effect by dysfunctional variants of ABCG2 is stronger than environmental effects for hyperuricemia

Akiyoshi Nakayama

Department of Integrative Physiology and Bio-Nano Medicine, National Defense Medical College, Tokorozawa, Japan

防衛医科大学校 分子生体制御学講座 中山昌喜

血中成分 13:00~14:00

◆座長 鈴木康司 (藤田保健衛生大学医療科学部臨床検査学科)

Koji Suzuki (Faculty of Medical Technology, Fujita Health University School of Health Sciences)

O4-15 Association between fasting plasma glucose levels and microRNAs in Japanese subjects without diabetes mellitus

Koji Suzuki

Faculty of Medical Technology, Fujita Health University School of Health Sciences, Toyoake, Japan

藤田保健衛生大学 医療科学部臨床検査学科 鈴木康司

O4-16 Plasma fetuin-A levels are associated with metabolic syndrome in a general population in Uku-town

Aya Obuchi

Department of Internal Medicine, Division of Cardio-Vascular Medicine, Kurume University School of Medicine, Fukuoka, Japan

久留米大学病院 心臓血管内科 大淵綾

O4-17 An early pregnancy HbA1C predicts gestational diabetes independent of fasting glucose in Japanese pregnant women

Yoko Yachi

Faculty of Health and Nutrition, Yamanashi Gakuin University, Kofu, Japan

山梨学院大学 健康栄養学部 谷内洋子

O4-18 Association between objectively measured physical activity and serum adiponectin in the middle-aged population

Yuichiro Nishida

Department of Preventive Medicine, Faculty of Medicine, Saga University, Saga, Japan

佐賀大学 医学部予防医学分野 西田裕一郎

O4-19 Serum microRNA-20a is associated with non-alcoholic fatty liver disease in a general Japanese population

Hiroya Yamada

Department of Hygiene, Fujita health University School of Medicine, Aichi, Japan

O4-20 Even- and odd-chain saturated fatty acids are differentially associated with adipokines  
Department of Preventive Medicine, National Center for Global Health and Medicine, Tokyo, Japan  
Kayo Kurotani

国立国際医療研究センター 疫学予防研究部 黒谷佳代

コーホート研究と RCT 14:00~14:50

◆座長 溝上哲也 (国立国際医療研究センター臨床研究センター疫学予防研究部)

Tetsuya Mizoue (Department of Epidemiology and Prevention, Clinical Research Center, National Center for Global Health and Medicine)

O4-21 Contribution of Physical Activity on Body Mass Index changes in Young Working Men in Japan: a Cohort Study

Manako Konda

Department of Health Informatics, School of Public Health, Kyoto University

京都大学大学院 医学研究科社会健康医学系専攻 誉田真子

O4-22 Impaired fasting glucose as an independent risk factor for hypertension among Japanese subjects

Masaaki Morio

Department of Family Medicine, Kochi Medical School, Kochi, Japan

高知大学医学部 家庭医療学講座 森尾真明

O4-23 Association of leisure time and occupational physical activities with risk of metabolic syndrome in Japanese workers

Keisuke Kuwahara
